NUST - Research Day 27th July 2018

Forging Links between Industry and Academia; Thomas Honer

- What does it mean to have an academic degree?
- Do all parties understand this?

- What is the responsibility of the University and of the Industry with regard to education?

- Interactions between Academia and Industry on the same level.

- How can the relationship between the society, education institutions and industry be optimised for the benefit of the country?

NUST - Research Day 27th July 2018

Forging Links between Industry and Academia; Thomas Honer

- Would employers (Industry) need to review the business model?
- Is there only „one“ Industry?
- How can the challenges of today and the future be turned into opportunities and solutions?
- Feedback towards and control of Academia.

TH1
